Household Hazardous Waste Disposal

Many products found at home can be harmful to the environment if not properly disposed of. Household hazardous wastes are usually any item that has one or more of these key words on the label: DANGER, WARNING, CORROSIVE, POISON, FLAMMABLE, EXPLOSIVE, OXIDIZER, IRRITANT, HARMFUL or FATAL.

Kern County operates a household hazardous waste collection and reuse facility. Drop-off is FREE to all County and City residents.
