2016 DOMESTIC AND FIRE WATER FEE SCHEDULE

PLEASE VERIFY WATER PURVEYOR AND TESTING AUTHORITY PRIOR TO MAKING PAYMENT

- Fire Hydrant Inspection \$490.00 Due Upon Plan Approval**
This service is necessary for all new Fire Hydrants that are installed as part of a new construction for proper materials and installation within the incorporated areas of the City of Bakersfield. The purpose of this fee is to recover the City's cost to provide future repair/replacement service.
- Fire Hydrant Flow Test – By Other Water Purveyor \$75.00 Due Prior To Flow Test**
This service is requested by developers or engineers for new development within non City operated water districts. The testing is utilized to determine the hydrant flow and pressure capabilities in a fire emergency. The City's role within these districts is to review the tests performed by others and collect data for City records. The purpose of this fee is to recover the City's cost to obtain fire flow data for this service.
- Fire Hydrant Flow Test – By Other Water Purveyors – After Hours \$113.00 Due Prior To Flow Test**
This service is necessary at some locations within non City operated water districts to reduce traffic impact and preserve water quality to the public. The testing is utilized to determine the hydrant flow and pressure capabilities in a fire emergency. The City's role within these districts is to review the tests performed by others and collect data for City records. The purpose of this fee is to recover the City's cost to obtain fire flow data for this service.
- Fire Hydrant Flow Test – By City of Bakersfield \$265.00 Due Prior To Flow Test**
This service is requested by developers or engineers for new development within the City limits where the water purveyor is the City of Bakersfield or City is authorized by other Water Purveyors. The testing is utilized to determine the hydrant flow and pressure capabilities in a fire emergency. The City's role within the Service Area is to perform and review the tests and collect data for City records. The purpose of this fee is to recover the City's cost to provide this flow test service.
- Fire Hydrant Flow Test – By City of Bakersfield – After Hours \$345.00 Due Prior To Flow Test**
This service is necessary at some locations within the City limits to reduce traffic impact and preserve water quality to the public. This service is requested by developers or engineers for new development within the City limits where the water purveyor is the City of Bakersfield or City is authorized by other Water Purveyors to perform the test. The City's role within the Service Area is to perform and review the tests and collect data for City records. The testing is utilized to determine the hydrant flow and pressure capabilities in a fire emergency. The purpose of this fee is to recover the City's cost to provide this flow test service.
- Fire Service Inspection \$541.00 Due Prior To Inspection Request**
This service is mandatory for any new buildings required to have fire protection systems. It includes inspection of connection to main lines and piping to the building including fire line risers. The purpose of this fee is to recover the City's cost to provide this service.
- Domestic/Fire Water System Plan Check - \$700.00 Due During Plan Submittal**
Water Plans are subject to plan check review and signature by the Water Resources Department in order to insure that construction of water facilities is per City standards and specifications. The purpose of this fee is to recover the City's cost to provide this service.
